

[Representative] How do cancel Norton 360 subscription ?

😊 If you want to cancel your Norton 360 subscription the very first step is to sign in to your Norton account at my.norton.com using your registered email and password because that is the control center where you can manage all your subscription details .  Once logged in click on your profile icon in the top right corner then go to “My Subscriptions” where you will see your Norton 360 plan status whether it is active and whether auto-renewal is currently enabled or disabled .  The easiest way to prevent further charges is to disable the auto-renewal toggle which immediately stops Norton from automatically billing your payment method when your subscription period ends .  If you cannot locate the option or face technical problems you can reach Norton support by visiting support.norton.com and choosing the “Contact Us” option where you will be guided to phone support or live chat with a representative .  Using live chat is recommended because you get a written record of the cancellation request which can be saved as proof in case you need to dispute any future billing .  If you purchased Norton 360 on an Android device through Google Play Store the cancellation must be done through Google by opening Play Store tapping your profile photo then navigating to subscriptions selecting Norton and tapping cancel subscription .  Similarly if your Norton 360 plan was purchased on an Apple device you must go to Settings tap your name select subscriptions choose Norton and cancel it there otherwise Apple will continue billing your credit card .  If you purchased directly from Norton’s website the account dashboard is your main tool but if needed you can still ask for help via email or chat with agents to confirm that auto renewal is disabled .  Remember Norton offers a 60-day money-back guarantee on most annual plans so if you were recently charged you can request a full refund at the time of cancellation .  The agent will normally verify your account details such as registered email billing address or the last four digits of your credit card before processing your request for cancellation or refund .  Once processed Norton will send you an email confirmation stating that auto-renewal has been turned off or the subscription is canceled and if applicable that a refund is being issued .  Refunds can take about 7–10 business days to appear on your card statement so be sure to check your account and keep your confirmation email safe until you see the money back .  If you want to be extra safe take screenshots of your cancellation steps in your Norton account dashboard because those records are powerful proof if Norton mistakenly charges you later .  In the rare case that Norton still charges your credit card after you canceled you can contact your bank or credit card provider to dispute the transaction using your cancellation confirmation as supporting evidence .  Norton agents may try to retain you by offering discounts additional months free or product upgrades but if your goal is to stop charges politely decline and firmly request cancellation .  Always double-check after cancellation by logging back into your Norton account and confirming that auto renewal now shows as disabled so you can be confident your credit card will not be billed again .  If you see auto renewal still

listed as active even after canceling immediately reconnect with support provide your case ID or chat transcript and insist they resolve the issue without delay 🎥. {{{833}}} {{{743}}} {{{5300}}} 🌐 Be careful only to access Norton support from the official Norton website because many fake scam websites try to pose as Norton support and they will attempt to steal your sensitive information 🔒. {{{833}}} {{{743}}} {{{5300}}} 💡 Always type support.norton.com directly into your browser instead of clicking on ads or suspicious links you might find on search engines which could redirect you to fraudulent websites 🚫. {{{833}}} {{{743}}} {{{5300}}} 📊 Monitoring your credit card statements regularly after cancellation is a good financial habit that helps you catch unwanted charges early and gives you time to dispute them if necessary 📅. {{{833}}} {{{743}}} {{{5300}}} 🔧 If you need to completely remove your credit card information from Norton log into your Norton account go to billing information and delete or replace your card details to avoid accidental billing 🔧. {{{833}}} {{{743}}} {{{5300}}} ☀️ Cancelling your Norton 360 subscription does not mean your protection ends immediately because you will continue to enjoy security features until the original expiry date of your subscription ❤️. {{{833}}} {{{743}}} {{{5300}}} 📁 This means you have time to decide whether you want to switch to another antivirus provider or simply use free built-in protection like Windows Defender without losing immediate coverage 🛡️. {{{833}}} {{{743}}} {{{5300}}} ✨ The process may feel overwhelming at first but when you break it into steps—login disable auto renewal confirm via email and monitor billing—the cancellation is straightforward and secure 💯. {{{833}}} {{{743}}} {{{5300}}} 📌 Keeping a record of every step ensures that you remain in full control of your subscription and payment details and that Norton cannot continue charging you against your wishes ✅. {{{833}}} {{{743}}} {{{5300}}} 🗨️ The support staff are usually responsive but you must be firm and clear with your request to cancel because sometimes they prioritize retention over cancellation 🙋. {{{833}}} {{{743}}} {{{5300}}} 🔑 With persistence and proper documentation you can cancel Norton 360 without stress avoid unnecessary renewal charges and secure a refund if you act within the money-back guarantee period 🏆. {{{833}}} {{{743}}} {{{5300}}} 🎯 Following these steps protects your finances ensures your credit card will no longer be billed and gives you complete control over your Norton 360 subscription cancellation process 🎉.
