- Verified prescription process
- Priority shipping anywhere in the USA
- Encrypted payments and confidential handling
- Professional customer assistance

About Codeine 60mg

Codeine belongs to the **opioid analgesic** class and works by modifying how your brain and nerves perceive pain.

It's typically prescribed for short-term relief when lower doses are insufficient.

Primary Medical Uses

- Relief from surgical, dental, or muscular pain
- Pain associated with chronic injuries or illness
- Cough suppression (in select prescription forms)
